

Dear Manolis Family Dental Patients,

We hope this letter finds you and your family in good health. Our communities have been through a lot over the last few months, and we are excited to welcome you back in the office beginning June 1st! While many things have changed, one thing has remained the same: our office's commitment to your safety.

Our office follows infection control recommendations made by the American Dental Association (ADA) and the U.S. Centers for Disease Control and Prevention (CDC). To safeguard the health and well-being of our patients and staff, universal precautions will be taken, as always, consisting of:

- The use of appropriate personal protective equipment (PPE)
- Routine equipment sterilization procedures

In addition, changes we are implementing include:

- Our office will communicate with you before your appointment to ask screening questions
- If possible, please remain outside of the office until your scheduled appointment time
- We ask that patients enter the office unaccompanied. For those patients who need a guardian to accompany them, please limit this to a single family member
- *Patients should arrive wearing a face mask/covering and you will be asked to sanitize your hands upon entry*
- Please take your temperature the morning of your appointment. Upon your arrival, we will confirm no temperature with a contactless thermometer and again ask health screening questions
- To promote social distancing, we will minimize the number of people in the reception area, where no food or drink will be allowed
- We have removed magazines, children's books and toys from our waiting room as those items are difficult to disinfect: Please bring minimal items with you into the office
- Cell phones are not permitted on any surface

Additionally, only patients being treated by Dr. Todd and the dental hygienists will be allowed in the treatment rooms, where we have installed HEPA air filters to maximize air quality.

Thank you for being our patient. We value your trust and loyalty and look forward to welcoming you back to Manolis Family Dental!

Sincerely,

Dr. Todd Manolis and Team
